REFAEL ROBINOV

SENIOR BACKEND & FULL STACK ENGINEER

Be'er-Sheva, Israel | +972 52-703-0595 | rafi20080@gmail.com
Portfolio: raful222.github.io/Portfolio | GitHub: raful222 | LinkedIn: refael-robinov

PROFILE

Senior software engineer with production experience since 2021, specializing in C#, .NET, REST APIs, and enterprise integrations. Builds backend services, Redis caching layers, and pipelines connecting mainframe systems to .NET and Angular applications. Uses AI-assisted tools alongside automated testing and peer review.

TECHNICAL SKILLS

Backend: C#, .NET 6-10, ASP.NET Core, REST APIs, microservices, distributed systems
Data & Integration: SQL Server, query optimization, Redis, Mainframe / Natural
Frontend: Angular, TypeScript, JavaScript
Tools & Delivery: Git, TFS / Azure DevOps, CI/CD, Docker, Postman, automated testing
AI-Assisted Development: Claude Code, Gemini, Codex

PROFESSIONAL EXPERIENCE

Senior Backend & Full Stack Engineer | Israel Tax Authority (Sha'am) 2025 - Present

- Designed and deployed enterprise microservices and REST APIs using C#, .NET 8-10, and ASP.NET Core for national-scale systems.
- Developed and optimized Natural programs and data pipelines connecting mainframe systems with .NET services and Angular applications.
- Implemented Redis caching and optimized SQL queries to address processing bottlenecks and improve response times.
- Built Angular and TypeScript portals and administrative dashboards integrated with backend APIs.
- Used AI-assisted workflows, automated code verification, peer reviews, and TFS/Git-based CI/CD to support delivery and code quality.

Backend Developer | Qualish Ltd, Omer 2021 - 2025

- Developed C# and .NET 6 APIs, database schemas, and backend service endpoints.
- Integrated payment providers, billing reconciliation, and real-time event notifications.
- Built financial KPI dashboards and data pipelines; improved database query performance and customer onboarding workflows.

SELECTED PROJECTS

MT-Algo: Trading system combining a C#/.NET backend, a Python computer vision service, and Interactive Brokers integration. Live demo

Task Management API: C#/.NET REST API with permissions, audit trails, task dependencies, and pagination. GitHub repository

EDUCATION & PROFESSIONAL TRAINING

B.Sc. in Software Engineering | SCE, Be'er-Sheva 2020 - 2023

GPA: 86.7/100 | Specialization: Cybersecurity
Graduation project: Exam management and anti-cheating system using C# and Web API.

INT College: Automating Success & AI Certification (2026)
John Bryce: Advanced Angular & .NET training (2025)
Net4U College: Networking & Cybersecurity Certification (2019 - 2020)

MILITARY SERVICE & LEADERSHIP

IDF Paratroopers Brigade: Combat Soldier & Commander, First Sergeant (2012 - 2015)
Aharai! / IMPACT! Scholarships: Youth Leadership Mentor (2020 - 2023)

Languages: Hebrew - Native | English - Fluent
