REFAEL ROBINOV

SENIOR BACKEND & FULL STACK ENGINEER

Senior Software Engineer with production experience since 2021, specializing in C#, .NET, distributed systems, and enterprise integrations. Builds high-throughput APIs, Redis caching layers, and data pipelines connecting Mainframe / Natural systems with .NET services and Angular applications. Uses AI-assisted development tools alongside automated testing and peer review.

PORTFOLIO
raful222.github.io/Portfolio/

Core Skills

- C# & .NET 8–10
- ASP.NET Core / Web APIs
- Microservices Architecture
- Mainframe (MF) & Natural
- Redis In-Memory Caching
- Angular (v17–21)
- AI-Assisted Development
- TypeScript & JavaScript
- SQL Server & Relational DBs
- End-to-End (E2E) Pipelines
- TFS / Azure DevOps & Git
- Distributed Systems
- Docker & Containerization
- Agile Methodology & CI/CD
- Postman & System Testing

Languages

Hebrew	Native
English	Fluent

Experience

Senior Backend & Full Stack Engineer, Israel Tax Authority (Sha'am) — 2025 - Present

- **E2E Service Architecture:** Designed and deployed enterprise microservices and REST APIs using C#, .NET 8-10, and ASP.NET Core for national-scale systems.
- **Mainframe (MF) & Data Pipelines:** Developed and optimized Natural programs and data pipelines connecting mainframe systems with .NET services and Angular applications.
- **Distributed Caching & Latency:** Implemented Redis caching and optimized SQL queries to address processing bottlenecks and improve response times.
- **Modern Reactive Frontend:** Built Angular and TypeScript portals and administrative dashboards integrated with backend APIs.
- **AI-Assisted Development & Quality:** Used Claude Code, Gemini, and Codex alongside automated code verification, TFS/Git CI/CD, and peer reviews.

Backend Developer, Qualish Ltd, Omer — 2021 - 2025

- **Backend Systems:** Developed C#/.NET 6 APIs, database schemas, and backend service endpoints.
- **Integrations:** Integrated multi-provider payment gateways, billing reconciliation, and real-time event notifications.
- **Data Visualization:** Built financial KPI dashboards and data pipelines for executive stakeholders.
- **Performance:** Streamlined customer onboarding workflows, cutting query latency and improving UX.

Selected Projects

StocksBattle - Real-Time Multiplayer Trading Arena
Stock and crypto trading game with live market feeds, multiplayer competitions, and real-time leaderboards. Next.js, React, TypeScript, WebSockets / SSE. stocksbattle.com

TryInvest - Investment & Portfolio Management Platform
Investment platform with portfolio tracking, market analysis, risk metrics, and strategy simulation. C#, .NET, Angular, SQL Server. tryinvest.co.il

Education & Professional Training

B.Sc. in Software Engineering — SCE College of Engineering, Be'er-Sheva — 2020 – 2023
GPA: **86.7** | Specialization in **Cyber Security** | Graduation Project: Anti-cheating exam management system (C#, Web API).

Automating Success & AI Certification — INT College — 2026
Advanced AI workflows, Prompt Engineering & Autonomous Agent architectures.

Advanced Angular 17–21 & .NET 8–10 Masterclasses — John Bryce — 2025

Networking & Cyber Security Certification — Net4U College — 2019 – 2020

Military Service & Leadership

Combat Soldier & Commander — IDF Paratroopers Brigade (Rank: First Sergeant) — 2012 – 2015
Led combat troops in high-pressure environments requiring rapid decision-making and resilience.

Youth Leadership Mentor — "Aharai!" (Impact Scholarships) — 2020 – 2023
Mentored young people from underserved communities, supporting civic involvement and leadership.
